

Mini Mount Bracket Assembly

- 1** Slide brackets onto controller such that the screw posts are positioned towards the back of controller.
- 2** Align stand with screw posts and loosely fasten all 4 screws into place before tightening them into their final position.

Please refer to the Go-Coil™ stand instructions for mounting heater, proper use and safety information.

Misuse of Go-Coil™ system is extremely dangerous. If you have any difficulty or questions about mounting brackets or other D-Nail related products please email or message us.
